## ENFORCEMENT PLAN

### ANTILON LAKE DISPERSED RECREATION AREA

#### WENATCHEE NATIONAL FOREST

The Forest Service is working in cooperation with the Lake Chelan Reclamation District, Manson Recreation District, Washington State DNR and Chelan County Sheriff's Office to improve the overall management of the Antilon Lake Recreation Area. Antilon Lake is a heavily used but lightly developed recreation area. Use is particularly high during the Memorial Day weekend each year. It is known as a "Party Area" during this weekend and abounding law enforcement problems and corresponding resource damage problems frequently occur. A need was identified to better manage and enforce this area in a cooperative manner due to the type of use this area receives and given the mixed ownership patterns and various types of land management responsibilities.

The above agencies have met and agreed to certain standards of management for the Antilon Lake Dispersed Recreation Area. We have agreed upon a short-term management direction for the area which focuses on joint law enforcement policies. We are presently working towards a long-term management direction which includes upgrading the infrastructure of the dispersed camping sites over time. The joint enforcement measures that we've agreed to include the following:

- 1.) Limiting the consecutive days of camping to seven.
- 2.) Restricting motorized use (except for snowmobiles) to developed roads only.
- 3.) Prohibiting discharge of a firearm, air rifle or gas gun within the Antilon Lake Dispersed Recreation Area boundary. (See EXHIBIT A).

The cooperative management of this area will include enforcement of these measures by patrols of the Forest Service Recreation Technician, Forest Service Engine Crew, DNR employees, and the Chelan County Sheriff's Department. On Holiday weekends the Forest Service, Chelan County Sheriff's Department and the DNR will provide extra patrols.

A signed order of these corresponding CFR's will be posted on a bulletin board at the Forest Service portion of the camping area. Non-Forest Service managed lands will have these restrictions posted on bulletin boards at their camping areas as well but not written in CFR format.
